Name: CBP51 explosion-proof distribution box

**Application:**

1. can be used in zone 1 and zone 2 dangerous places
2. can be used in IIA, IIB group explosive atmosphere

**Feature:**

1. the box of combined type, its switch compartment is of explosive-proof structure, busbar and outlet compartment adopt safety-increased structure.
2. the shell is made of diecasted Al-alloy, inside is install MCB or MCCB, has DZ47, YCM1 to be supplied.
3. adopting modular structure, various circuit can be freely combined.
4. with protections of overload and short-circuit, electrical leakage protection is able to add to the user requirement.
5. special type can be made.
6. suitable for both steel pipe and cable wiring.
7. suitable for GB3836-2000, IEC60079 standard request

**Notice for ordering:**

The user shall indicate circuit number and its relative current, number or CB pole, if want to add electrical leakage protection, there shall be specially noticed, if need to install chief circuit switch, its current, its current, inlet or outlet specifications and number shall noted.
