

Name: CBC51 explosion proof operating post**CXS****Application:**

1. can be used in zone 1 and zone 2 dangerous places
2. can be used in IIA, IIB group explosive atmosphere

Feature:

1. al-alloy diecasted shell with plastic-prayed surface.
2. inside is mounted universal changeover switch, button, ammeter can mount other, Instruments according to user's requirement) and indicator etc
3. there are more than 30 function of changeover switch available to be chosen.
4. can be customized according to user's requirement.
5. the ammeter's measuring range can be determined by users.
6. suitable for steel pipe and cable wiring.
7. the marker of product when ex-factory only reflect the content of chief part, the code of other parts is parts parameter.
8. suitable for GB3836-2000, IEC60079 standard request.

Main technical parameters:

Using sort	Rated voltage	Rated current	Ex-mark	Protection category	Corrosion-proof Grade	Intel's thread	Cable's outer
AC-3	220/380	10	ExdeIIBT6	IP54	WF1	1	12-17
AC-4
