Name:CBFC8100 Explosion-proof Floodlight

Applications:

Suitable for petroleum, petrochemical industry and marine in explosive and flammable locations as lighting fixture. It can be used as a floodlight on roadway, railway tunnel, bridge and culvert, plaza, and building, etc.

Features:

Excellent explosion-proof performance enables the light to work safely in explosive and flammable locations.

By adopting with high light efficiency, long life discharge lamp and high reflectivity secular, has a high brightness and a wide lighting range.

Precise structural design and high-tech coating technique lead to good waterproof and excellent anti-corrosion performances. which ensures the lamp to work in outdoor damp environments to resist water immersion and strong attack of sea wave.

The housing is made of high strength aluminum alloy materials, the protection grade of enclosure is Ip66, with optimized structure design, it is good to resist stand strong collision and impact.

Suitable for seat mount, wall mount and ceiling mount, service is simple and convenience.

Product Data:

1. Metal halogen lamp: 250/400W, Sodium lamp: 250/400W
2. Standard: 250W
3. Rated Voltage: 220VAC 50 Hz
4. Shell Protection Grade: IP66
5. Insulation Class: I
6. Corrosion-proof grade: WF2
7. Weight: 30 Kg
8. Size: 600*330*520mm
9. Ex-mark: ExdIIB T4/T6
