

Name:CBPC8720 Explosion-proof Light

**CXS**

Applications:

Applicable to combustible and explosive sites and petrochemical equipments, offshore petroleum platform, oil station and oil depot sites, establishments and shipbuilding industry as fixed lighting.

It features excellent explosion-proof performance, which can work in combustible and explosive dangerous sites safely and reliably.

Features:

High intensity gas discharge lamp is applied as light source featuring high lighting effects, uniform illumination and mean lifecycle up to over 10000 hours.

The lamp body is made of light alloy materials featuring corrosion-resistant and impact resistant performance; the transparent part is made of high temperature-resistant and impact-resistant specially-made tempered glass, which is designed to reduce the temperature inside lamp body and increase the lifecycle of bulb.

It is easy to operate by ceiling type, suspender type and lamp post type.

Product Data:

1. Metal halogen lamp: 70/100/150W, Sodium lamp: 70W
2. Standard: 150W
3. Rated Voltage:220VAC 50Hz
4. Shell Protection Grade: IP65
5. Insulation Class: I
6. Corrosion-proof grade: WF2
7. Weight: lamp:3.2Kg, Ballast compartment:4.2Kg
8. Size: lamp: 185*265mm, Ballast compartment:314*241*88mm
9. Ex-mark: ExdIIC T4/T6
