

Name:CBP56 tyoe explosion proof socket box**Application:**

1. can be used in zone 1 and zone 2 dangerous places
2. can be used in IIA,IIB ,IICgroup explosive atmosphere

Notice: please note if need IIC group

Feature:

1. the shell is diecaste al-alloy with plastic-sprayed surface,and has leakage function according to The dermengd.
2. various kind of socket are available.
3. equipped with chief switch,having protection of overload,short circuit.
4. suitable for cable wiring.
5. suitable for GB3836-2000,IE60079 standard request

Main technical parameters:

Curcuit number	Rated current	Rated voltage	Poles	Protection class	Ex-mark
2.3.4.6	16.32	220	IP+N	IP54	ExdeIIBT4
		380	3P+N		ExdeIICT4
