

Name:CBWM6501 Mini Working Lamp

**CXS**

Description:

This product adopts the forth green environmental LED solid-state light source, costs little and works long with efficient lighting. Strong lighting of consecutive 12 hours makes up for short-time lighting of small lamp in market. It can be use in railroad, power, public security and other mine industries for night patrol, inspection and repair, and also lighting on duty.

Function:

1. Energy-saving proper: LED light source with high light effect, energy consuming less and power consuming is 20% Of in can descent lamp with the same luminous flux which over comes the low lighting efficiency of traditional tungsten filament It has advantages of high-efficiency, energy-saving and long service life.
2. Environmental Protection property: White soft LED light without flashlight It won bring Optical tire but enhance work efficiency
3. Working time: Continuously service life for strong light reaches12 hours which can satisfy requirements on duty .Also can be used as emergenc lighting. Only 8 hours charging time. Used Freely for 6 months after charging one time.
4. Intellectual protection: Installed with protective apparatus to reliably protect battery and prolong service life. Intellectual protection: The lamp is installed with over-discharged and short circuit protective apparatus to reliable protect battery and prolong the lamp's service life.
5. Durability: It adopts optimized structure design and specially made engineering Plastic in order to resist powerful shock and impact (it works well even under the conditions of in advertent fall or collision)Its strong lightness and working lightness can be transferred freely and focal length also can be altered. It can be used by hand-hold, waist-hold, and safety helmet.

Main technical parameters:

1. Rated voltage: 3.6V
2. Rated capacity: 4000mA
3. Light sources
 - (1) Working current: 350/120mA

Tel: 86-577-27866615 / E-mail: cxs@light-tower.cn <http://www.light-tower.cn>

(2) Working voltage: 3.3-3.5V

(3) Average service life: 100000h

4. Continuous discharging time: 12/36h

5. Charging time : Use normally : 8h, Battery exhaust: 8-9h

6. The service life of battery: About 1000 cycles

7. Outline dimensions: length x width x height: 96 x 68 x 33mm

8. Weight: 0.37Kg
